Lee Archer, Kamen Nevenkin : Panzerwrecks 20: Ostfront 3 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Panzerwrecks 20: Ostfront 3:

0 of 1 people found the following review helpful. Another great book in this seriesBy Joseph J CampbellAnother great book in this series. I recommend this series to all who have interest in World War II and for modelers wishing to recreate armored vehicles.0 of 1 people found the following review helpful. Five StarsBy CustomerGreat, a continuation of the series3 of 3 people found the following review helpful. A bit of a departure from the usual...By Keith Bickel... the book starts with 5 pages of information on Russian ground attack aircraft, armament, tactics before continuing with the usual twisted German (Hungarian) wreckage. The entire book, this time, is about the Balaton battles in early 1945. Pictures are from a Russian archive that are mostly unpublished.

Kamen Nevenkin and Lee Archer join forces to bring you hitherto unseen photos from the depths of the Russian archives in Panzerwrecks 20: Ostfront 3. This book is exclusively about the havoc and wreckage inflicted on the Panzerwaffe by the Russian airforce around Lake Balaton in Hungary. Lots of late war German AFVs in varying stages of destruction - perfect for the modeler or student of armored conflict. Specially commissioned colour artwork by Felipe Rodna show selected Panzers and the weapons used by the Soviet airforce. Includes a map of the battlefield.

Being a huge fan of the Panzerwreck Series of books, it is a no-brainer for me to immediately have a feeling of excitement when a new edition is released. Panzerwrecks 20 – Ostfront 3, as is all of the Panzerwrecks Series of books, been produced in the highest quality. The photographs are almost always cleanly reproduced giving a vivid and revealing look into the destruction of these vehicles. The information presented supporting the pictures in this book is informative shedding light onto how the panzers met their demise. It is not hard for me to recommend Panzerwrecks 20 – Ostfront 3 to any historians, modelers or simple anyone interested in this subject matter! Panzerwrecks continues

to not disappoint us with their sustained series of books! (Modelers Social Club Forum)About the AuthorLee Archer is a military vehicle historian living in Old Heathfield, Sussex with his wife and daughter. He previously designed master models for Accurate Armour of Scotland and was a regular contributor to model magazines. Lee has published twenty books on German fighting vehicles of World War 2.Kamen Nevenkin is a military researcher and author from Sofia, Bulgaria. He has published many books about the fighting on the Eastern Front.
