Adriano Sala : Pistols: History, Technology, and Models from 1550 to 1913 before purchasing it in order to gage whether or not it would be worth my time, and all praised Pistols: History, Technology, and Models from 1550 to 1913:

The history and technology of different models from 1550 to 1913 including the evolution of pistols from the very first that lit up with a wick to the drum and automatic of the modern age Includes pistols from the United States, United Kingdom, Albania, Italy, Germany, Spain, Austria, Belgium, France, Denmark, Switzerland, Scotland, and Japan Colt Army 1860, Le Page, Remington Parlor, Tedesco da tiro, Volcanic Repeating Arms 8" Pistols covers one-shot pistols, pistols with one barrel but multi-shot, those with two or more barrels, drum and automatic pistols, and specializations for duels, target shooting, and more. Examples came from the Civic Museum in Venice, Italy; the Royal Armory in Turin, Italy; the Victoria and Albert Museum in London; the Tojuseet Army Museum in Copenhagen; and many other museums and private collections.
