A great historical account of a significant battleBy william russellThis is a wonderful account of the events that occurred at Pork Chop Hill in April 1953 in Korea.The

historian Marshall has chronicled the actions of many officers and men who were involved in that battle, that for all its significance, went virtually unreported by the UN press who were covering prisoner exchange in Panmunjom. 2 of 3 people found the following review helpful. Good Book By Ken I am a Vietnam War Veteran and I enjoy reading about the battles from other wars. It is a good book and the service to acquire it was also helpful.
