Commander Frances Omori : Quiet Heroes: Navy Nurses of the Korean War 1950-1953 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Quiet Heroes: Navy Nurses of the Korean War 1950-1953:

The book is beautiful insofar as the notes from the "dirty Marines" and other soldiers are concerned. Brackets are used in [the] sentences entirely too much. Other than the over use of brackets, it's a beautiful tribute from the men who received care in the various hospital ships to the ladies in their "crisp white uniforms" who were like Angels to the men they cared for. When you really take in what is written about the nurses: sleeping two hours per night on a regular

basis and using their own blood for transfusions to the point of anemia in order to keep these young men alive, you will have a brand new respect for those who served in the most forgotten war America fought last century. 7 of 7 people found the following review helpful. The Forgotten Heroes By William Evans A book such as Quiet Heroes is long overdue. It pays tribute to an easily forgotten group of quiet heroes, Navy Nurses, that quietly continue, even to this day, to provide dedicated care and comfort to our war casualties. Books are constantly written of the combat heroes, combat commanders, pilots, medal winners and even all their support personnel...until you come to the one class of heroes no one remembers, the Navy Nurse. By Ms. Omori focusing on the Navy Nurses of the Korean War (1950-1953) she captures an era on the brink of passing into our memories without tribute or recognition. Wonderfully supplemented with actual photographs and interviews of the quiet heroes themselves, the book pays that tribute long overdue. A must read for anyone interested in our nation's history and the agony suffered during the Korean Conflict.

Navy nurses serving in the Korean War 50 years ago were called, saved lives, and came home quietly.

Frances Omori has carefully documented wonderful, true stories of real people that show the lasting power of goodness. -- Vice Adm. Daniel Oliver, U.S.N, Ret, Chief of Naval Personnel, 1996-1999 The human misery endured by many of the wounded during the Korean War can never be portrayed in words. -- Col. Walt Ford, U.S.M.C., Ret., Editor, Leatherneck: Magazine of Marines About the Author Frances Omori is currently an active duty commander in the U.S. Navy. As a national security analyst and strategist, she addresses policy issues including arms control, weapons of mass destruction (chemical, biological and nuclear), counterproliferation, and war gaming and simulation. She is a liaison for the U.S. Pacific Command. Before joining the navy, she was a broadcast journalist in Colorado, a television producer in Los Angeles, and a casting director for the television show "Hawaii Five-o." Frances has also been a legislative assistant and press secretary for the U.S. Senate and U.S. House of Representatives. This is Frances Omori's second book; she was co-editor of Strength Through Cooperation: Military Forces in Asia-Pacific.
