for such an unworthy book. In my entire Academic course I have not seen such a bad written book. It consists of dry information and the author jumps from one topic to another within a paragraph. There is no consistent flow of events and in many cases the content deviates from the facts discussed within two sentences. For instance, you read about case A and in the next sentence the author jumps to case B just to explain the case C on the third sentence. Not to mention that the timeline of the cases can be all over the place. Case A might be before the 1947, case B before the civil war and case C somewhere in the middle. Furthermore the end notes provide little or no evidence/information of the sources used something that questions the validity of the information used in the book. Overall it is very bad book and I feel very sorry that American Students have to pay for it and try to get an A. It needs way more work to become a worthy book and students should have other choices since they pay the hard worked money for this. Routledge, should know better. Author's like this one, destroy the name and the fame of the publisher. If I had a choice, I would ask for money back. 0 of 0 people found the following review helpful. This here is what you get and a great read it is By Brittany Blanchard When your college professor writes a book and assigns it a required text for the curriculum... This here is what you get and a great read it is! (Wink, thanks Professor Browne) the text focuses on issues in American society that aren't often focused on typical textbook literature. Unlike other texts that are usually required for law students, this book tells stories in words that both compliment and criticize the way our society functions. 0 of 0 people found the following review helpful. Only problem is the lack of page numbers, the ... By Gin Only problem is the lack of page numbers, the electronic version does not have any page numbers at all. The only upside of the electronic version is the fact that you can search for keywords.

This second edition of Gloria Browne-Marshall's seminal work, tracing the history of racial discrimination in American law from colonial times to the present, is now available with major revisions. Throughout, she advocates for freedom and equality at the center, moving from their struggle for physical freedom in the slavery era to more recent battles for equal rights and economic equality. From the colonial period to the present, this book examines education, property ownership, voting rights, criminal justice, and the military as well as internationalism and civil liberties by analyzing the key court cases that established America's racial system and demonstrating the impact of these court cases on American society. This edition also includes more on Asians, Native Americans, and Latinos. *Race, Law, and American Society* is highly accessible and thorough in its depiction of the role race has played, with the sanction of the U.S. Supreme Court, in shaping virtually every major American social institution.

About the Author Gloria J. Browne-Marshall is a writer, speaker, and Associate Professor of Constitutional Law at John Jay College (CUNY). As a Civil Rights attorney, she litigated cases for the NAACP Legal Defense Fund, Inc., Community Legal Services of Philadelphia, and Southern Poverty Law Center. She taught in the Africana program at Vassar College. Gloria Browne-Marshall is Founder/Director of The Law and Policy Group, Inc., a journalist who covers the U.S. Supreme Court, a playwright, and author of several books on justice under law.
