From University Of Chicago Press : Readings in Russian Civilization, Volume 2: Imperial Russia, 1700-1917 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Readings in Russian Civilization, Volume 2: Imperial Russia, 1700-1917:

3 of 3 people found the following review helpful. Excerpts from Russian literature By Zlata Konevski This book is ideal for the reader that is familiar with Russian literature and wants to know a little bit more. There are many excerpts from

books which are no longer in print or not available in regular book shops. This is a gem of a book for anyone who wants to go beyond the classic well known books. 2 of 2 people found the following review helpful. Loved it. By Marguerite Abaddonais This book, like the other volumes in this series, was well written. Short, concise, and full of information most Americans are never going to know, I'd recommend this series (and it's a very short series) to anyone with a passing interest in world history. 0 of 0 people found the following review helpful. Great Book By Paola Colon I bought this for my Imperial Russian class and it is amazing. SO many great works and authors in one book.

"This new and enlarged version of Readings in Russian Civilization is the result of fairly extensive revisions. There are now 72 instead of 64 items; 20 of the selections are new. The first volume has undergone the least change with 3 new items, of which 2 appear in English for the first time. In the second volume there are 6 new items; all of them appear in English for the first time. The third volume has undergone the greatest revision, with 11 new items, of which 6 are newly translated from the Russian. It is the editor's hope that items left out in the new edition will not be sorely missed, and that the new selections will turn out to be useful and illuminating. The aim, throughout, has been to cover areas of knowledge and periods which had been neglected in the first edition, and to include topics which are important in the study of the Russian past and present." "The bibliographical headnotes have been enlarged, with the result that there are now approximately twice as many entries as in the old edition. New citations include not only works which have appeared since 1963, but also older books and articles which have come to the editor's attention."—From the Editor's Preface". . . a judicious combination of seminal works and more recent commentaries that achieves the editor's purpose of stimulating curiosity and developing a point of view."—C. Bickford O'Brien, *The Russian Review* "These three volumes cover quite well the main periods of Russian civilization. The choice of the articles and other material is made by a competent and unbiased scholar."—Ivan A. Lopatin, Professor of Asian and Slavic Studies, University of Southern California

From the Back Cover In selecting the readings for these volumes, I was guided by several considerations. The selection, first of all, was to be important for the period of Russian history under consideration. Second, it was to lend itself fairly easily to class analysis--if possible, by the discussion method. This meant that polemics were preferable to descriptions, though I could not, and indeed did not wish to, manage without the latter. The selection was to stimulate curiosity to the point where the reader would wish to pursue the subject further.
