William A. Kappel, Gary Warren : Rockhounding Utah: A Guide To The State's Best Rockhounding Sites (Rockhounding Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rockhounding Utah: A Guide To The State's Best Rockhounding Sites (Rockhounding Series):

1 of 1 people found the following review helpful. I was pleased with it By Joanna With the exception of one entry, all 4

places I chose to visit in the book had very accurate direction descriptions. I was pleased with it. I visited several locations in the Minersville greater area.0 of 0 people found the following review helpful. The copies were so poor, I can't read the mapsBy PamI received a black and white copy. The copies were so poor, I can't read the maps.2 of 2 people found the following review helpful. Rock-houndingBy David WilliamsGood book to get you started in Utah. Good directions,and interesting reading on states geography. I would recommend this book.

This completely updated and revised, full-color edition of Rockhounding Utah reveals the grandeur of the state's exposed formations, its canyon walls etched with fossils, and the spires and arches of the Needles District in Canyonlands National Park. Each description of the 86 state's sites includes concise information on the material to be found there, the tools to bring, the best season to visit, the vehicle to drive, or when a remote find suggests it's time to lace up the hiking boots. Readers will glean new insights into the obsidian of the Black Rock sites, jasper at Hell's Backbone, petrified wood at Bullfrog Turnoff, and fossils of sea lillies along the Wasatch Range.

From the Back CoverThis completely updated and revised, full-color edition of Rockhounding Utah reveals the grandeur of the state's exposed formations, its canyon walls etched with fossils, and the spires and arches of the Needles District in Canyonlands National Park. Each description includes concise information on the material to be found there, the tools to bring, the best season to visit, the vehicle to drive, or when a remote find suggests it's time to lace up the hiking boots. Readers will glean new insights into the obsidian of the Black Rock sites, jasper at Hell's Backbone, petrified wood at Bullfrog Turnoff, and fossils of sea lillies along the Wasatch Range. May your journeys be fruitful and your bag be heavy on the way home. Somewhere in that bag among your rocks, we hope you haven't forgotten your copy of Rockhounding Utah.
