A Must!By George HoltonEvery German reenactor should have a copy of this. Cyrus, as always, does a great job describing kit and what one needs to make a good impression.5 of 5 people found the following review helpful. Brimming with information! (015)By Troy TempestAs someone new to collecting German militaria, this book was a fantastic help to me. Even though it is a small format book, it has hundreds of photos, and chapters on uniforms, camouflage protective clothing, equipment, insignia, awards decorations and finally campaign shields cuff titles. The book is very easy and enjoyable to read, and the reader comes out definitely the wiser. The best thing is it is one in a large series, and I found that I was keen to pursue Mr Lee's other titles with equal enthusiasm. For all the re-enactors and militaria collectors out there, this is a fine addition to your library.A top read!
