Cyrus A. Lee, Chris Mason : Soldat, Vol. 2: The World War II German Army Combat Uniform Collector's Handbook; Equipping the German Army Foot Soldier in Europe 1943 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Soldat, Vol. 2: The World War II German Army Combat Uniform Collector's Handbook; Equipping the German Army Foot Soldier in Europe 1943:

0 of 0 people found the following review helpful. The book is fine for what it is By **Quintin Trammell** If you want an in-depth study of the German foot soldier you will need to buy other books like the Deutsche Soldaten, Feldbluse, and Camouflage Uniforms of the German Wehrmacht. This book does provide a quick overview of the uniforms and equipment more commonly seen on the foot soldier in 1943. It is not complete and does not provide detailed photos or data. With that said however, I still recommend the book for the price especially if you are just beginning your study into this field as it will be helpful to pinpoint areas you are interested in and provide you additional knowledge into the subject. I have bought all the volumes of this series I have run across and have not been disappointed with any of them. 0 of 0 people found the following review helpful. Good reference By **William Good** for book shelf 0 of 0 people found the following review helpful. Good book for the info. By **A Customer** While a relatively small book, it does give

plenty of info on the basic soldier's equipment and uniforms of the period of 1943, a compromise area of where the uniform is more functional and less formal than the pre-war years, and before they got even more pressed in 1945.

Great Photos throughout
