veterans of the 398th Bomb Group, 8th Air Force, and who has a younger brother who always said from the time he could speak that he had flown all the missions with our Dad on his B-17, it was a fulfilling and compelling true story. 0 of 0 people found the following review helpful. Soul Survivor By Mjhatch I also believe in reincarnation....I was hold captive reading James' story...or should I say his soul's story....we all want to know, but are afraid to know...each life is such an adventure! 0 of 0 people found the following review helpful. wonderful story and required reading. By Kevin A. Patterson I can't imagine what toll this journey must have taken on Them, but I'm glad they shared it with us. As a Christian, I also struggle with the belief of reincarnation and being a bit of a skeptic doesn't help. With so many reincarnation books being so new agey with talk of spirit guides and such, this story is so refreshing. I'm a cross between the two parents and this book speaks to me more than other stories I have read. The idea of past lives is Scary yet exciting, and this book is pretty much required reading for those with any interest in it.

The parents of James Leininger were first puzzled and then disturbed when their two-year-old son began screaming out chilling phrases during recurrent nightmares, such as, "Plane on fire! Little man can't get out!" The centerpiece of a loving family of three, James was a happy, playful toddler who had only just begun stringing together sentences. Determined to understand what was happening to their son, Bruce and Andrea set off on a journey of discovery that was to rock them to their core. For the more they researched the arcane comments and fragmented details little James revealed, the more they were drawn inescapably to a shocking conclusion: that James was reliving the life of James Huston, a World War II fighter pilot who was killed in the battle for Iwo Jima-- over sixty years ago! Through painstaking research and conversations with war veterans and surviving members of James Huston's family, Bruce and Andrea were forced to confront their skepticism and reexamine their entire belief system. In the process, they not only managed to solve the mystery of their son's statements. They also uncovered revelations about James Huston's life and wartime experiences that could finally bring peace and healing to his loved ones, decades after his death. This book features stunning drawings from James Leininger illustrating his unshakable memories, photos that portray the eerie resemblance between young James and the adult James Huston, and a foreword from world-renowned past lives expert Carol Bowman. In SOUL SURVIVOR, readers will come to know and believe in the special child who harbors the soul of a man who died in 1945.

"James Leininger's story is the most compelling evidence so far for reincarnation." ---T. J. MacGregor, Edgar Award-winning author of Running Time About the Author Bruce and Andrea Leininger, James' parents, live in Louisiana with their son James, who is now nine years old. From AudioFile Do the nightmares of a Louisiana boy mean he is the reincarnation of a downed WWII pilot? His parents make a case for just such a phenomenon as they detail their investigation into the facts behind his dreams. Paul Boehmer's tone is a little too astonished at times as he talks about James Leininger's obsession with airplanes and his uncanny knowledge of the details of a pilot's life. At the same time, though, Boehmer brings humanity to the story as he talks about the pilot's sister and surviving comrades. Whether or not listeners believe in reincarnation, Bruce Leininger's research casts an important light on the lives and deaths of the flyers who figure in his son's dreams.
