Dermot Moore, Peter Bagshawe : South Africa's Flying Cheetahs in Korea (South Africans at War) before purchasing it in order to gage whether or not it would be worth my time, and all praised South Africa's Flying Cheetahs in Korea (South Africans at War):

1 of 1 people found the following review helpful. Scholarly workBy Anthony GenualdiThis is a good scholarly read. It started as Mr. Moore's master's thesis, and was humanized by Peter Bagashawe's journalistic touches. It moves through the squadron's missions quickly, and tells of the SAAF contributions to the UN cause very well. The last chapter is best, since it contains the reminiscences of various members of the unit. For an understanding of the contribution of our South African ally to the fight against Communism in the Korean War, you can't go wrong with this book.

Used: Very Good/very good; 1991 hardcover with dust jacket. slight shelfwear
