Angus Mansfield : Spitfire Saga: Rodney Scarse DFC before purchasing it in order to gage whether or not it would be worth my time, and all praised Spitfire Saga: Rodney Scarse DFC:

Rodney Scrase's life in the RAF began in an old airship shed where he took the King's shilling in May 1941. He went on the fly Spitfires as far afield as America and Malta with No. 72 and No. 1 Squadrons, finally being awarded the Distinguished Flying Cross in 1944. He was released from service with a record of four destroyed and three damaged,

having taken part in the invasion of Italy, the attack on Tunis in 1943, and a stint as an instructor in the art of air to air gunnery. In *Spitfire Saga*, using Scrase's log books and interviews with the man himself, Angus Mansfield presents the unique story of one man's experience of flying the most iconic aircraft of World War II. Complete with thorough historical context and a true insider view of life as an RAF fighter pilot, this book is an excellent addition to any history enthusiast's library.
