Karl Marx : The Essential Marx (Dover Books on Western Philosophy) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Essential Marx (Dover Books on Western Philosophy):

0 of 0 people found the following review helpful. It's great reading for those wishing to know more about MarxBy JessiIt's great reading for those wishing to know more about Marx. Please note that my review has more to do with the selection of Marx's work, rather than the content of the ideology. This is perfect for anyone wanting to know more

about a huge historical figure, or any student doing a body of research.0 of 0 people found the following review helpful. Tattered torn. Several highlighting marks papers left ...By HTattered torn. Several highlighting marks papers left inside. I am sure that within a few months, the cover will come off due to the front cover tear.0 of 0 people found the following review helpful. I'd recommend that ANYONE who wants to get a grasp on ...By gotogal44Leon Trotsky's review made Marx a lot more readable because I understood going in what Marx was elucidating. I'd recommend that ANYONE who wants to get a grasp on today's economics read at least the Trotsky review. Written in the late 30's but as relevant today as if it had been penned yesterday.

Shortly before he was assassinated in 1940, Leon Trotsky — one of Marx's most devoted converts and a key figure in the Russian Revolution — made this selection from *Capital*, to which he appended his own lengthy and insightful introduction. Compact and fascinating, this invaluable work not only presents Marx's thoughts in his own words but also places them in the swirling context of the 20th century. A critical analysis of ideas that have influenced millions of lives for well over a century, this book will be an important addition to the libraries of students and instructors of economics, history, government, and Communist thought.
