**Patricia Clough : The Flight Across The Ice: The Escape of the East Prussian Horses** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Flight Across The Ice: The Escape of the East Prussian Horses:

7 of 7 people found the following review helpful. Reviting historyBy Laura J. IsenhartThis book parallels the misery of the experience of the East Prussia people at the end of WWII in an accurate and reviting manner. I found it to be

historically correct and full of all the pathos of what I know about the unspeakable suffering of millions during that time. I shared my book with several other horse lovers and they were equally impressed with the book which also gave the reader a sense that for some the trek ended positively. I think for those who are unfamiliar with the history of this era, this book has brought into focus the the tragedy shared by all sides in the war.0 of 0 people found the following review helpful. Five StarsBy James JohnsonI love it and the quality of the book exceeds expectations1 of 1 people found the following review helpful. Five StarsBy Ingrid FrassaSince my father was born in East Prussia, I found this book very interesting.

The moving and untold story of the Russian advance into East Prussia in 1945, and the fight for survival of a people and their way of life

About the AuthorPatricia Clough is a writer and former foreign correspondent for The Times and The Independent. Her previous publications include English Cooking: A Reputation Disproved and Umbria (Haus, 2009).
