The Protestant Reformation, begun with Martin Luther's posting of The Ninety-Five Theses in 1517, rapidly escalated into an evangelical reform movement that transformed European Christianity. Less than a decade later, a massive rebellion of German commoners challenged the social and political order in what would prove to be the greatest popular rebellion in European history until the French Revolution. In this volume, Michael Baylor explores the relationship between these two momentous upheavals — one enduring, the other fleeting — and the centuries-long debate over whether and how they might be connected. A collection of period documents — including letters, sermons, pamphlets and illustrations — offer firsthand accounts from the reformers, rebels, and the institutions they sought to topple. Document headnotes, maps, a chronology of events, questions to consider, a selected bibliography, and an index are provided to enrich student understanding.

'This well-written and interesting book is judicious and balanced, and it offers a picture that is at once both broad and focused. Students who read it will learn a great deal.' - Allan Galpern, University of Pittsburgh, USA
