Edward N. Luttwak : The Grand Strategy of the Roman Empire: From the First Century A.D. to the Third before purchasing it in order to gage whether or not it would be worth my time, and all praised The Grand Strategy of the Roman Empire: From the First Century A.D. to the Third:

5 of 5 people found the following review helpful. Clausewitz in a toga By RET This book is approachable to the strategist, the scholar and the simply curious. Well-written and well-reasoned, Luttwak has produced yet another excellent book. The approach of using modern strategical analysis on Roman politico-military affairs is something that has long been missing from studies of the Roman Army. Certainly the armchair legates who cry that the death of the Roman Empire was in its failure to continue expanding should read this book before continuing to rant their expansion-without-profit creed!
0 of 0 people found the following review helpful. I recommend this book By moises nadal The topic is too important to be ignored. I recommend this book. I liked the quick service and fast delivery by this store. Thanks.
0 of 0 people found the following review helpful. Five Stars By Bob Gibson Great support

'A fascinating book, well written and forcefully argued...Luttwak's formulations are as refreshing as they are convincing...He has done for Roman historians what they have not done for themselves.' -Z. Yavetz, New Republic

Luttwak has done scholarship an immense service... Every page brings detailed insights into the working of Roman military organization, in strategy and tactics. (E. Badian New York of Books)
Lucidly and vigorously written. (Times Literary Supplement)
