Boren This is another masterpiece of information from Award Winning Colonel Seabrook, who has written over 40 volumes on the subject of America in its antebellum, Bellum, and post-bellum years. This book contains many of the points of information covered in his previous books, so I'm not sure I learned anything new, having read many of them already. But what is nice about this book in particular is the way it is presented. It is essentially 190 pages of "bullet points". It asks the question.. "did you know"... and then proceeds to answer it in a page or two, and then going on to the next "Did you know". For example: Did you know that the South fought to preserve the Constitution while the North fought to overturn it? Did you know that the North, not the South, started the so called "Civil War"? Did you know that the war was not over slavery, but rather Lincoln's plan to install Big Government in Washington. Did you know that Confederate President Jefferson Davis was a political Conservative who adopted a black child during the War and was already committed to abolishing slavery in early 1865, months before the War ended? Or that President Lincoln was a political Liberal who barred blacks from the white house, consistently blocked black civil rights, used the "N" word routinely, and wanted to deport all blacks out of America to their own black State? As the author states, these mostly unknown facts are concealed from us because exposing them would reveal the truth about the Civil War; namely that it was an illegal and unnecessary conflict started by left wing progressive Abraham Lincoln in an attempt to install big government in Washington. This book reveals a 150 year conspiracy to suppress the facts about the War, exploding hundreds of falsehoods and myths that have been presented as "true history".

1 of 1 people found the following review helpful. Will be Reading more from this author... By J. Kruiuzenga A wonderful read! Eye-opening to be certain. Makes absolute sense... unless you choose to believe the liberal media. Why is the South repeatedly subject to ridicule, humiliation and lies? This book will tell you. It has certainly given me a lot to think about. As well it should. I couldn't put the book down. Mr. Seabrook makes some great arguments that I wholeheartedly agree with. I will be reading more books by this author.

3 of 3 people found the following review helpful. A Great Book! By Jacqueline A. Karlsten Lochlainn Seabrook is a great researcher and author! You won't want to put this book down! The North doesn't want you to read this book! I couldn't put it down! You will learn a lot from this one!

If you think the American Civil War was fought over slavery, if you think Abraham Lincoln was the "Great Emancipator," if you think that the Confederate Flag is a symbol of racism, you are a victim of The Great Yankee Coverup! Whatever you were taught in school about America's War of 1861 is not only wrong, it's an intentional fabrication to hide the truth. In his groundbreaking work, *The Great Yankee Coverup: What the North Doesn't Want You to Know About Lincoln's War!* award-winning author and historian Colonel Lochlainn Seabrook reveals a nefarious 150 year conspiracy to suppress the facts about the War, exploding hundreds of falsehoods and myths that have been presented to us as "true history." Did you know, for example, that the South fought to preserve the Constitution while the North fought to overturn it? That the U.S.A. was created as a confederacy, that it was widely known as "the Confederate States of America," and that this is why the South adopted this name when it seceded from the Union? That the Southern states seceded legally with no intention of destroying the Union, and that their only goal was to perpetuate the original confederate republic formed by the Founding Fathers? Did you know that Confederate President Jefferson Davis was a political Conservative who adopted a black child during the War and was already committed to abolishing slavery in early 1865, months before the War ended? Or that Union President Abraham Lincoln was a political Liberal who barred blacks from the White House, consistently blocked black civil rights, wanted to put African-Americans in their own all-black state, spent his entire adult life trying to deport blacks, said if there was a war between the races he would stand with his own, used slaves to complete the dome on the Capitol Building, referred to Native-Americans as "savages" and blacks as an "inferior race," and was a leader in the American Colonization Society, whose stated goal was to make the U.S. "white from coast to coast"? Did you know that both the American slave trade and American slavery got their start in the North and that the American abolition movement began in the South? That the Confederacy enlisted blacks before the Union, and that five times as many blacks fought for the South as for the North? That the Emancipation Proclamation freed no slaves and that this was not its true intention to begin with? That due to Lincoln's inhumane abolition plan ("let 'em root, pig, or perish"), 25 percent of all Southern blacks died as a result of the Emancipation Proclamation? And did you know that the Southern Confederacy was never officially shut down? Why have these facts been concealed from us? Because exposing them would reveal the truth about the Civil War; namely, that it was an illegal and unnecessary conflict started by left-wing progressive Lincoln in an attempt to install big government at Washington, D.C. This hard-hitting revolutionary book, a must-read for all Civil War buffs and history lovers, blows the lid off "The Great Yankee Coverup." Read it and be a victim no longer! Civil War scholar Colonel Lochlainn Seabrook, a descendant of the families of Alexander H. Stephens and John S. Mosby, is the most prolific and popular pro-South writer in the world today. Known as the "new Shelby Foote," he is a recipient of the prestigious Jefferson Davis Historical Gold Medal and the author of over 50 books that have introduced hundreds of thousands to the truth about the War for Southern Independence. A seventh-generation Kentuckian of Appalachian heritage, Seabrook has a 40 year background in American and Southern history, and is the author of the runaway bestseller *Everything You Were Taught About the Civil War is Wrong*, Ask a

Southerner!

"A must read!" - THE SOUTHERN HISTORICAL SOCIETY. "A wonderful read! Eye-opening to be certain. Makes absolute sense . . . unless you choose to believe the liberal media. Why is the South repeatedly subject to ridicule, humiliation and lies? This book will tell you. It has certainly given me a lot to think about. As well it should. I couldn't put the book down. Mr. Seabrook makes some great arguments that I wholeheartedly agree with. I will be reading more books by this author." - J. KRIUZENGA. AMAZON REVIEW, FIVE STARS: "I love this book!" - KAT LADY. "This is a great book. Every American should read it." - JIM HOLLAND. "Southern families, I read this book early this morning. It's worth reading if y'all like to learn and know more history. The history school teachers may have taught y'all well, but they didn't teach y'all everything." - JARED JONES. AMAZON REVIEW, FIVE STARS: "A GREAT BOOK!": "Lochlainn Seabrook is a great researcher and author! You won't want to put this book down! The North doesn't want you to read this book! I couldn't put it down! You will learn a lot from this one!" - JACQUELINE KARLSEN. "I love Colonel Lochlainn Seabrook's 'The Great Yankee Coverup!'" - PAUL SCOFIELD. AMAZON REVIEW, FIVE STARS: "From an objective point of view, either the author, Lochlainn Seabrook, is telling the truth or he isn't telling the truth. Since there is only one true side to the story, if he is telling the truth, then the other side is telling a lie. If the author is telling the truth, then there is no need for him to defend himself. The truth will defend itself." - TONY TRAN. About the Author Award-winning historian, scholar, and the world's most prolific, respected, and popular pro-South author.
