Digby George Smith : The Greenhill Napoleonic Wars Data Book: Actions and Losses in Personnel, Colours, Standards and Artillery before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Greenhill Napoleonic Wars Data Book: Actions and Losses in Personnel, Colours, Standards and Artillery:

0 of 0 people found the following review helpful. Resource, not a readBy Bookworm64 This is NOT a book you read straight through. It's handy for looking up any fight's numbers in order to wargame, especially if you use miniatures, or really are doing a study on the Napoleonic Wars with the Revolutionary Wars tossed in. Essentially, you get this book, The Military History and Atlas of the Napoleonic Wars by Elting, a book on how (like Featherstone's) and you can wargame pretty much any size engagement, while learning how all the little fights can bleed one as dry as a big one. It is certainly revealing just how much fighting, and casualties, actually gets ignored in writing history of campaigns, and this book shows it. 0 of 0 people found the following review helpful. Five Stars By David Horton Very detailed but not for the casual reader 0 of 1 people found the following review helpful. Great for Napoleon War Buffs By Barbara D. Zambrana There is some very detailed data in "The Greenhill Napoleonic Wars Data Book: Actions and Losses in Personnel" for buffs who like to keep track of who won what battle. I received it in good time and condition and I got it for a good price. I am very satisfied - Thank You

Based on 30 years of research, this extremely detailed reference work provides comprehensive information on every action in every campaign of the Revolutionary and Napoleonic Wars. The source material, previously unavailable, came from European libraries. '
