**Kristin Gilpatrick : The Hero Next Door The Korean War Preview Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Hero Next Door The Korean War Preview Edition:

In this special preview edition of The Hero Next Door of the Korean War author Kristin Gilpatrick profiles some of those veterans who made the climb up Korea's steep rocky and frozen mountains. They fought for ground along the

38th parallel and made history in Korea's Chosin Reservoir. Secret missions by our pilots are now revealed. The experiences of the men who battled to hold the line until the cease fire is a tribute to their love for their country.
