Umoja : The Interracial Con Game before purchasing it in order to gage whether or not it would be worth my time, and all praised The Interracial Con Game:

books out of the four book series to me for the simple fact alone that it debunks the myths that surround and gravitate towards interracial relationships. The authors have worked very hard on this book and I would strongly recommend this book to anybody who is a firm believer in black love and black unity. The lies and trends that black people are bombarded with concerning interracial relationships is all explained and even exposed within the context of this very book alone. Of course the book also tells and talks about how interracial relationships are used as a tool and a conspiratorial weapon to divide both black men and black women from one another in the most deepest and historical manner imaginable. I would highly recommend it for people who are serious about black liberation for victims of racism/white supremacy. 3 of 3 people found the following review helpful. The Truth is Here By Moses Wayne Rhone Jr I found this book to be most constructive in revealing truth about the confusion of non-white people by white people under the guise of an "intimate relationship". Umoja has pointed out in great detail why it is highly incorrect to engage in sex with white people as long as we are under a global system of white supremacy. I was first given the true knowledge of such pairings by the great Dr. Frances Cress Welsing in her book *The Isis Papers: Keys to the Colors*. *The Interracial Con Game* expands on the 8th area of activity in great detail. As a black male I appreciated this very accurate and telling indictment of such dangerous unions. 3 of 3 people found the following review helpful. A Great Teaching Aid to Teach the Black Family By Fares S This book is a very important piece of literature for Black people, once Blacks realize that war has been waged on the Black Collective, this books delves deeper into one of the many tricks and strategies that White Supremacy used in its psychological and physical war against Black People. The main problem of the Black collective is they are not aware or conscious of what white people are doing, this book helps to solve that problem.

From reality and trash-talk TV shows to sensationalized "black" relationship books, blacks are bombarded with a daily barrage of negative (and false) information about black-on-black love. On the heels of all this "black love is bad" news comes the mainstream media's manufactured cure for black relationship woes: interracial relationships with whites. What is the real agenda behind the promotion of interracial relationships -- and why are black males and females the main targets? "The Interracial Con Game" will provide some interesting and controversial answers -- and some long overdue food for thought. This politically-incorrect book reveals how interracial sex is used as a weapon of mass mind and body destruction and what black males and females must do to ensure our genetic, economic, and psychological survival. From reality and trash-talk TV shows to sensationalized "black" relationship books, movies, and internet articles, black are BOMBARDED by a daily barrage of negative (and false) information about black-on-black love. On the heels of all this "black love is bad" news comes the mainstream media's manufactured cure for black relationship woes: interracial relationships with whites. About the Author Our first book -- "Trojan Horse: Death of a Dark Nation" -- was published in 2009 under the pseudonym -- Anon. In 2011, our pen name was changed to Umoja (the Swahili word for Unity) for our second book, 'Black Love Is A Revolutionary Act.' Why The Authors Use A Pen Name There is nothing original about the ideas presented here. Wiser minds have come before and will certainly come long after this book was written. The authors are not falsely modest; we are acknowledging we did not invent the wheel. The authors are not seeking fame. This is not an attempt to be mysterious or provoke curiosity. This is not a gimmick or a perverse, reverse publicity ploy. In today's media-obsessed world, there is too much focus on "show" and not enough on "substance." The authors choose not to participate. The authors reserve the right NOT to be a distraction to the message. We are the least important part of this book. You, the reader, are more important. Even more important, is what you do with this information. Every word in this book was designed to inform, provoke discussion, decrease confusion, reduce hostility, minimize conflict, and to promote the kinds of constructive actions that are necessary to replace the system of Racism/White Supremacy with a system of universal justice for all the people on the planet. You may not agree with everything or anything in this book. We have presented our truths to the best of our ability. If this book inspires you to seek your own truths, our book has been a success.
